

cenicriviroc - all results

| Treatment | Number of studies | Demonstrated or suggested results | Inconclusive results | Uncertain results | Safety results |
|-----------|-------------------|-----------------------------------|----------------------|-------------------|----------------|
|-----------|-------------------|-----------------------------------|----------------------|-------------------|----------------|

Uncertain results are statistically significant results but obtain in trial with high risk of bias.

Demonstrated results are significant results obtained on the primary endpoint of a trial at low risk of bias or with some concerns.
